

BRUSH PICK-UP GUIDELINES

Per Ordinance No. 2005-12:

- Each residence will receive one free pick-up per month. Brush is not picked up from businesses.
- Items must be placed by the roadway or street's edge away from obstruction such as overhead electrical, telephone or cable television lines.
- The Environmental Services Department reserves the right to deny any load, or part of a load.
- This service is not provided for contract work such as tree surgeons, tree trimmers, pulpwooders, plumbers, building contractors or roofing contractors. Neither is it for rubbish accumulations from private construction or tearing down existing structures.
- Building debris, such as scrap lumber, plaster, roofing, concrete, brickbats, and other such matter resulting from the construction, repair or remodeling of any building or appurtenances on private property, dirt, stumps and tree trunks, will not be removed by the department, but the owner or contractor must cause this waste to be privately moved.
- All tree limbs shall be placed with all tops in the same direction. Limbs must be cut in 16-foot lengths or less and no larger than six inches in diameter. Tree limbs and vegetation must be from existing yards.
- All grass cuttings, pine straw and leaves shall be securely tied in plastic bags. These plastic bags should be of such quality and thickness as to contain all contents when they are picked up by hand or by mechanical devices.
- Warning slips will be given to residents for brush piles that do not comply with the above criteria. If the issue is not corrected in a timely manner, it will be referred to the Code Enforcement Officer.

BRUSH PICK-UP GUIDELINES
